Improved governor pressure solenoid for Chrysler transmissions

Rostra Precision Controls is proud to release the new and improved governor pressure solenoid for all years of the Chrysler 46, 47 & 48RE(A500/A518) transmission. Rostra part number 52-0275 features an enclosed can assembly for cleaner operation, improved durability, longer life, quicker response time and increased fluid flow over the OE unit. Please contact your transmission parts supplier for price and availability or go to www.rostratransmission.com to find a local distributor.
