

## Product Release: Aisin Warner 55-50 Linear Solenoid

Rostra # 52-0458  
 Transtar # A89428  
 SLU All Applications  
 Connector Color: Black  
 Function: TCC, 1-2, 2-3, 2-1, Reverse

Rostra # 52-0464  
 Transtar # A89428B  
 SLS All Applications  
 Connector Color: Green  
 Function: Clutch apply and release timing

Rostra # 52-0466  
 Transtar # A89428A  
 SLT All Applications  
 Connector Color: Blue  
 Function: Line rise, Fwd engagement, shift quality.

Rostra # 52-9036  
 Transtar # A89428K  
 Industry # TBA  
 SLS, SLT, SLU, All Applications  
 3 Solenoid Kit with Bracket

Solenoid Kits Offered By Rostra Precision Controls

Rostra # 50-9037  
 Transtar # A89428CK  
 SLS, SLT, All Applications  
 2 Solenoid Kit with Bracket

- Individual solenoids are sold in 6 per case, kits are sold "each".
- SLU solenoid can be replaced individually using the OE bracket.
- SLS and SLT solenoid must be replaced at the same time as a set using the included Rostra style bracket.
- Special surface treatments on the spool valve and ports to reduce friction and wear.
- Unique design allows each solenoid to be used in all valve body variations to maximize versatility, our kits are first in the industry to cover all models, all years.
- Solenoid housing has a unique slotted design which allows contaminants and debris to flow through solenoid instead of becoming entrapped causing premature failure
- Each unit is 100% calibrated and serialized at the time of manufacturer, minimum adjustment is required in the vehicle.
- Designed by the best engineering talent in America and manufactured in the USA
- Visit [www.rostratransmission.com](http://www.rostratransmission.com) for installation videos and instruction.
