Toyota expanded coverage and solenoid kits

Rostra Precision Controls proudly offers 15 complete solenoid kits for many of the late model Toyota automatic transmissions. Now available are complete kits for the U140, U240, U340, U341, U150, U151, A241, A245, A246, A247 and AW450-43LE transmissions. The majority of Rostra's kits contain the shift, lock-up, EPC and linear type solenoids. Many different styles and many different configurations are available for each transmission type. Individual solenoids are also available. Please contact your transmission parts supplier for price
